

SAFETY DATA SHEET

Lyophilized TotalSeq[™] Cocktails

Section 1. Identification

| GHS product identifier | : Lyophilized TotalSeq™ Cocktails |
|--|---|
| Product code | : Not available. |
| Other means of identification | : Not available. |
| Product type | : Lyophilized Cake. |
| Relevant identified uses o | f the substance or mixture and uses advised against |
| Product use | : Research. |
| Area of application | : Industrial applications. |
| Supplier/Manufacturer | : BioLegend Inc. 8999 BioLegend Way San Diego, CA 92121 – USA Tel: +1-858-455-9588 (7:00AM – 5:00PM PT, M-F) |
| e-mail address of person responsible for this SDS | : cs@biolegend.com |
| Emergency telephone number (with hours of operation) | : +1-858-455-9588 (7:00AM – 5:00PM PT, M-F) |
| | |

Section 2. Hazards identification

| OSHA/HCS status | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. |
|-------------------------------------|---|
| Classification of the | : Not classified. |
| substance or mixture | |
| GHS label elements | |
| Signal word | : No signal word. |
| Hazard statements | : No known significant effects or critical hazards. |
| Precautionary statements | |
| Prevention | : Not applicable. |
| Response | : Not applicable. |
| Storage | : Not applicable. |
| Disposal | : Not applicable. |
| Hazards not otherwise classified | : None known. |
| | |

Date of issue/Date of revision

Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Other means of identification

: Not available.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health and hence require reporting in this section.

Section 4. First aid measures

| Description of necess | sary first aid measures |
|-----------------------|---|
| Eye contact | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Ingestion | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

Most important symptoms/effects, acute and delayed

| Potential acute health effe | <u>ets</u> | | | |
|--|---|--|--|--|
| Eye contact | : No known significant effects or critical hazards. | | | |
| Inhalation | : No known significant effects or critical hazards. | | | |
| Skin contact | : No known significant effects or critical hazards. | | | |
| Ingestion | : No known significant effects or critical hazards. | | | |
| Over-exposure signs/symp | i <u>toms</u> | | | |
| Eye contact | : No specific data. | | | |
| Inhalation | : No specific data. | | | |
| Skin contact | : No specific data. | | | |
| Ingestion | : No specific data. | | | |
| Indication of immediate medical attention and special treatment needed, if necessary | | | | |
| Notes to physician | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. | | | |
| Specific treatments | No specific treatment. | | | |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. | | | |

See toxicological information (Section 11)

Date of issue/Date of revision

Section 5. Fire-fighting measures

| • | |
|--|---|
| Extinguishing media | |
| Suitable extinguishing media | : Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media | : Do not use water jet. |
| Specific hazards arising from the chemical | : No specific fire or explosion hazard. |
| Hazardous thermal decomposition products | : Decomposition products may include the following materials: carbon dioxide carbon monoxide phosphorus oxides halogenated compounds metal oxide/oxides |
| Special protective actions for fire-fighters | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. |

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

| For non-emergency personnel | lo action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. |
|--------------------------------|--|
| For emergency responders | f specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non- mergency personnel". |
| Environmental precautions | woid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental collution (sewers, waterways, soil or air). |
| Methods and materials for co | nment and cleaning up |
| Small spill | Nove containers from spill area. Vacuum or sweep up material and place in a lesignated, labeled waste container. Dispose of via a licensed waste disposal contractor. |
| Large spill | Nove containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

Section 7. Handling and storage

| Precautions for safe handling | |
|--|--|
| Protective measures | : Put on appropriate personal protective equipment (see Section 8). |
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
| Conditions for safe storage, including any incompatibilities | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

None.

| Appropriate engineering controls | : Good general ventilation should be sufficient to control worker exposure to airborne contaminants. |
|-------------------------------------|--|
| Environmental exposure controls | : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment |

will be necessary to reduce emissions to acceptable levels.

| Individual protection measures | |
|--------------------------------|---|
| Hygiene measures : | Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
| Eye/face protection : | Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields. |
| Skin protection | |
| Hand protection : | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. |
| Body protection : | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Other skin protection : | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| | |

|--|------|---------|--------|--------|--------|----|
|--|------|---------|--------|--------|--------|----|

Section 8. Exposure controls/personal protection

Respiratory protection

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties

| Appearance | | |
|--|-----------------------|--|
| Physical state | : Solid. [Cake.] | |
| Color | : White to off-white. | |
| Odor | : Odorless. | |
| Odor threshold | : Not available. | |
| рН | : Not available. | |
| Melting point | : Not available. | |
| Boiling point | : Not available. | |
| Flash point | : Not available. | |
| Evaporation rate | : Not available. | |
| Flammability (solid, gas) | : Not available. | |
| Lower and upper explosive (flammable) limits | : Not available. | |
| Vapor pressure | : Not available. | |
| Vapor density | : Not available. | |
| Relative density | : Not available. | |
| Density | : Not available. | |
| Solubility | : Not available. | |
| Solubility in water | : Not available. | |
| Partition coefficient: n- octanol/water | : Not available. | |
| Auto-ignition temperature | : Not available. | |
| Decomposition temperature | : Not available. | |
| SADT | : Not available. | |
| Viscosity | : Not available. | |
| Flow time (ISO 2431) | : Not available. | |
| | | |

Section 10. Stability and reactivity

| Reactivity | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|---|
| Chemical stability | : The product is stable. |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous polymerization will not occur. |
| Conditions to avoid | : No specific data. |

Date of issue/Date of revision

Section 10. Stability and reactivity

Incompatible materials

: No specific data.

| Hazardous decomposition | Under normal conditions of storage and use, hazardous decomposition products should |
|-------------------------|---|
| products | not be produced. |

Section 11. Toxicological information

| Information on toxicologic | al effects |

Toxicity

Conclusion/Summary : Not available.

Persistence and degradability

Not available.

Bioaccumulative potential

Not available.

Mobility in soil

coefficient (Koc)

Soil/water partition : Not available.

Other adverse effects : No known significant effects or critical hazards.

Date of issue/Date of revision

: 10/23/2019 Date of previous issue

ous issue : No previous validation

Section 13. Disposal considerations

| Disposal methods | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid |
|------------------|--|
| | safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

Section 14. Transport information

| | DOT Classification | IMDG | ΙΑΤΑ |
|-------------------------------|--------------------|----------------|----------------|

Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
